

TORE UP THE ASPHALT

STREET-CAR COMPANY RELIANT THE STREET WITH COBBLE STONES.

City Officials Much Exercised at the Company's Action on West Washington Street.

The Citizens' Street-railroad Company tore up two squares of asphalt paving between the tracks on Washington street, west to Mississippi street, on Friday for the purpose of laying a new track, with large and strong rails. When the track was down and the work of replacing the street began, the shades of night had fallen and yet the work progressed. When the sun lighted up the sky yesterday morning it was seen that instead of an asphalt pavement the space between the tracks was filled with stone coping. It had a convex surface, covered with fresh gravel, indicative of a new track. The news, however, did not reach the city authorities until afternoon, when it was telephoned to the Mayor. He would hardly believe it before the day closed he had consulted with the city attorney. What he will do he did not announce, but he said that the act would not pass without notice and that the city's legal right would be protected to the last. It was learned that whatever policy may be pursued the Mayor and the city attorney were in agreement upon the legal aspect of the rights of the city. Mayor Denny made repeated efforts to meet President Mason, but the latter could not be found.

In order to substitute the ninety-three pound rail in place of the old rail worn out, it was necessary to disturb a portion of the asphalted and bouldered space between the two tracks, also to tear out the boulders outside the rails and set in the carriage way on each side. Our roadmaster reported that he could make a much cleaner job and better job by bouldering the space between the two tracks and instead of restoring the boulders on the outside of the rails and setting in the carriage way, have the latter portion asphalted up to the rails in the same manner as was done between Illinois and Washington streets, thus presenting a smooth and even surface upon the outside of the rail. The roadmaster was instructed to finish the work upon that portion of the street during the present week so as to have it all clear for Sunday. The work of bouldering has been done in a thorough workmanlike manner and will be maintained by the company in the future. The Western Paving and Supply company were ordered to remove the rails and boulders from the carriage way which had heretofore been bouldered. General Manager McLean was asked last night about the circus advertising trailer about which Acting Superintendent Police Campbell yesterday spoke to him. The complaint had reached the police that the car had caused several horses to take fright.

"Six months ago," said Mr. McLean, "Barnum's advertising man came to me and wanted to hire a trailer for six days, and said period to be used at his option. I made a contract with him and he stipulated that he must see the police authorities and ascertain whether they would have any objection to his using the trailer. He then closed the contract and the company is fulfilling it at this time. No complaint has reached us that it was causing any disturbance among horses and if it had I would be the last man to permit a dangerous thing to continue. Since seeing the car on the lines Dickson & Talbott have asked for such an arrangement during the State fair and I have promised to let them have it."

Mr. McLean said that Mr. Verrier will arrive to-morrow and that the company would transact some routine business that could not be done in his absence. The Indianapolis Driving Club has asked the company to run a loop into the fair grounds and this matter will be laid before the directors. The Driving Club wants the track to run to the gate near the grand stand.

LOWER ASPHALT BIDS.

Contracts for West, Prospect and Ohio Streets Laid.

The Board of Public Works yesterday received bids for the grading and paving with asphalt to a width of forty feet the roadway of West street from New York street to Indiana avenue. The contract was let to the Western Paving and Supply Company at \$6.71 a lineal foot, each side. Stratified curb is to be used. The Indiana Bermudez Asphalt Company bid \$6.80, the Warren-Scharf Asphalt Paving Company, using "rich lake asphalt," \$6.71.

The contract for grading and paving with asphalt to a width of 25½ feet, the roadway of Prospect street from Reid street to Auburn street, was awarded to the Warren-Scharf company at \$15.5 a foot, each side, stratified curb is to be used. The Indiana Bermudez Asphalt Company bid \$16.50, and the Western Paving and Supply Company, \$15.75.

The Warren-Scharf company also secured the contract for grading and paving with asphalt to a width of forty feet, the roadway of Ohio street, from West street to Mississippi street, at \$6.8 a foot, each side. The Indiana Bermudez company bid \$6.90, and the Western Paving and Supply Company, \$6.75. The board gave the Warren-Scharf company a contract where its bid was the same as the Western company, because the latter has a number of contracts and the Warren-Scharf none, except this, which is the first it has secured in this city this year.

To Draw Plans for Parks.

The park commission yesterday employed Edward Hill, formerly with the Vandallia engineering corps, as a draughtsman in the preparation of the map showing the parks and land values of the city. Mr. Hill is one of the city engineer's inspectors, but Mr. Brown released him a month until this work can be done. The commission decided to sink the well in Garfield Park to second water, the present depth having failed. It was also decided to ask for bids for the construction of the cascade dam in Garfield Park according to the plans submitted by Morris DeWitt. The plan is to learn the cost, as nothing can be done until there is an appropriation for this purpose.

Board of Works Routine.

The Board of Public Works yesterday modified its action concerning the improvement of Fort Wayne avenue, from Alabama street to Central avenue, as to send the matter to the City Council. There were four to four property owners authorized to remonstrate and two of them did remonstrate. The Indianapolis Gas Company was ordered to light a gas lamp on Ellsworth street, between New York and Vermont streets. The water company was ordered to lay a main in Ohio street, from Mississippi to Missouri street. The city engineer was ordered to prepare papers for a sewer in Oriental street, from Washington to the railroad tracks. Also in Williams street, from Oriental to State street. The engineer was also instructed to prepare plans for cement walks, stone curbing and bouldered gutters on Woodruff avenue, from Clifford to Brookside avenue.

The building inspector reported a recommendation for the condemnation of a building owned by James F. Schofield, known as 173 East Vermont street. The hearing is set for May 21. He also heard known as Leopold Meyer's building at 244 East Washington street and also Marcus L. Sarné's stable on lot 2, square 28.

The remonstrances against the proposed improvement of the roadway and sidewalks of First street, from the east sidewalk of State avenue, from English avenue to Prospect street.

For grading and paving with brick, to a width of six feet, the east sidewalk of State avenue, from Prospect street to Orange street.

For grading and paving with cement, to a width of six feet, the east sidewalk of State avenue, from English avenue to Prospect street.

KIND WORDS FROM ABROAD.

A London Paper's Estimate of Police Matron Buchanan.

The Woman's Signal, a London paper edited by Lady Henry Somerset and Annie E. Holdsworth, contains in its issue of May 2 a three-column article upon the life and work of Mrs. Annie Buchanan, police matron at the Indianapolis police headquarters. Florence Barnie, an English woman prominent in charitable work, who recently made a visit to this country, is the author of the article. She is writing a series of articles regarding her visit to this country, and Mrs. Buchanan is made the subject of one of them. She says:

"In the course of a journey across the American continent some of my happiest hours were spent in the company of the woman prominent in charitable work, who is acting as police matron. It would be impossible to draw comparisons between them; but it so happened that I long stay at the hospitable home of that pioneer woman, Mrs. May Wright Sewall, enabled me to see the system most fully in Indianapolis than in any other town. Both by day and by night I was at the station and was permitted to go in and out with the utmost freedom. All the police officials treated me with the greatest kindness and the matron, Mrs. Annie Buchanan, practically initiated me into her varied and interesting duties and I felt very proud of going about with her in her neat uniform with a silver badge on her breast."

The writer goes on to relate some of her experiences while at headquarters, enumerating the rules of the department and the duties of the matron, after which she says of Mrs. Buchanan:

"I witnessed her firm, yet gentle, treatment of the drunken, the obdurate, the violent, the timid first offenders, young girls and even little children, and marvel, too, at the medical skill she evinced in dealing with those who were under the influence of drugs or incapacitated by illness. I was repeatedly struck by the woman's most highly qualified a woman would not end with her own narrow task, and the pleasant news she has just arrived of her success in an attempt to extend police matronly supervision throughout her own State of Indiana. While the methods of procedure are necessarily different in Great Britain, principles are the same, and it is a pleasure to see the same spirit of perseverance, determination and hard work of Mrs. Buchanan has proved a lesson to her and may have incentive to those women who, amidst considerable difficulties, are endeavoring to extend the system throughout this country."

The writer then reviews Mrs. Buchanan's "years' efforts to get passed the authorizing police matrons in towns of over ten thousand population. A review is also given of the early life and charitable work of the Indianapolis police matron. Concluding, the writer says:

"Mrs. Buchanan has had charge of about 2,500 persons or an average of about twelve a week. This is a not unenviable task compared with the arrests in our thickly-populated centers; its very smallness testifies to the kindly, humane character of the Indianapolis authorities. Is it too much to hope that all towns of any considerable size in this country will adopt methods so conducive alike to the welfare of the women under arrest and the policemen themselves?"

CHANGES IN SALOON FRONTS.

Proprietors Preparing to Conform with New Law.

Saloon men are under the impression that the provisions of the Nicholson temperance bill will be in force by June 10, and many of them are preparing to comply with the law. The management of the Bates House bar has already begun to make alterations. Yesterday the stained glass front on Washington street was torn out and another put in its place, so that the view from the street will not be obstructed. Pat McNeil, on South Illinois street, will make the necessary changes in his front. The costly screen in the saloon of William Tron will be taken out, and the partitions that inclose the small rooms in the rear of his place will have to be removed. Section 4 of the enacted bill, covering the sale of liquor, provides that the whole of the room be in full view of the street and that no screens, blinds or obstructions to the view shall be arranged. Section 2 also states that no device, instrument or music of any kind, or partitions of any kind shall be permitted in the room, which shall be separate from any other business.

TO NAME WALLACE'S SUCCESSOR.

Meeting of the Regency Appointing Power Called for Monday.

Yesterday Myron King, the Governor's private secretary, acting under instructions from Governor Matthews, notified the members of the appointing power that a meeting would be held Monday morning for the purpose of selecting the successor to General Law Wallace on the Monument Regency Board. The resignation of General Wallace came so unexpectedly, after having accepted the position, that there has been little talk of who his successor will be. It is merely a matter of speculation.

Preparing to Ignore the Law.

The Democratic county superintendents are getting restless as the time draws near when they will drop out of office. They are becoming anxious in regard to the workings of the new law, which places the election of the new superintendents in the hands of the Republican trustees. Doubts concerning the validity of the law have been expressed in many parts of the State, and, as recently noticed in these columns, the Democratic trustees have made preparations to ignore the law and elect successors to the present superintendents. Numerous inquiries have been received at the State Capitol in regard to the law, and the question has been referred to Attorney-General Ketcham. He has not rendered any formal opinion, but says that there is no doubt as to the constitutionality of the law. He has not thoroughly examined the law, and the opinion of the law is not an opinion as to whether it is properly drawn.

CITY NEWS NOTES.

Mr. and Mrs. William Siebert will return from a Eastern trip to-night.

The society of Hygiene will meet Wednesday afternoon, at 5 o'clock, at No. 12 West North street.

The board will start to-day for a week's bicycle trip to Cincinnati, Columbus and Frankfort.

Paul Lawrence Dunbar, the young negro poet, will give a reading of his verses at the Y. M. C. A. Hall Tuesday evening.

The ladies of the parochial branch of the Oak Grove church will give an entertainment in the guild room next Wednesday evening.

The executive committee of the Union Soldiers' Mutual League will meet this morning at Grand Army Hall to complete arrangements for the Fourth of July exercises.

An ice cream and strawberry social will be given Wednesday evening at the residence of Mrs. T. H. Schmitt, known as 173 East Vermont street, by the ladies of Naomi Chapter, O. E. S.

Mr. John and Mr. Haster, of Chicago, members of the Schubert Quartet, will sing in the Central Christian Church choir at the morning and evening services to-day. A special service of four numbers will be given in the evening.

Beginning to-night the Rev. Dr. Sims, pastor of the Methodist church, will deliver a series of biographical lectures on Sunday evenings. The lectures will be on the lives of historical figures, the subject of this evening being "St. Paul and Nero."

Patrolman Thompson's Funeral. The funeral of Dan Thompson, the dead policeman, will take place this afternoon. The entire night force of the department will leave the family home on Jefferson avenue with the body at 1 o'clock for St. Joseph's Church, corner of Noble and Michigan streets, where the services will be held. Thompson was very popular with members of the night force, and he had prepared a number of elegant floral designs, besides taking charge of the burial. Police headquarters have been draped.

Horses to Keep.

Summer months when away, will keep horses in box stalls and feed during day time, on good pasture at night. Experienced horseman in charge. Just at city hall. Secure for property given. Address H. Journal office.

NEW POOL ROOM CASE

WILLIAM TRON ARRESTED UNDER A GRAND JURY INDICTMENT.

His Case Will Be Tried Before That Against Douglas-Affairs of the Courts.

William Tron, proprietor of the Kingston saloon, No. 17 North Illinois street, was put under arrest at 5 o'clock yesterday afternoon. He was charged with maintaining a pool room. The arrest was made by a deputy sheriff, armed with a grand jury capias. The last grand jury returned indictments against Tron, but they were not made public until yesterday. Judge McCray fixed the bond at \$500. The amount was furnished, James R. Douglass being surety on the bond. The bill against Tron is similar to that returned against Samuel Douglass, manager of the Mercantile Telegraph Company, a year ago. The latter company has been operating in Tron's room, in the rear of his saloon. Douglass was put to trial four months ago, but the jury failed to reach a verdict. However, the indictment against him stands and the State hopes to try the case again and secure a conviction.

"We are not positive about Douglass," said Prosecutor Charles Wiltzie, yesterday. "We are not positive about Douglass, but I depend upon circumstances that may arise in some other cases to be tried, whether or not he will be brought to trial. It is probable that the Tron case will be disposed of before we get to Douglass again. I can't say when we can get other cases. It looks as if we were swamped in the Criminal Court."

Investigating Broad Ripple.

In Broad Ripple, in the jurisdiction of Judge McCray, of the Criminal Court, the county grand jury just adjourned made a quiet investigation of the liquor trade as it is carried on in some of the suburban towns. As a result of the investigation a true bill was found against Benjamin Johnson, proprietor of the Broad Ripple saloon, and he was arrested yesterday afternoon and brought to the city. He has been held in the city jail for \$200 for his appearance in the Criminal Court. The charge against Johnson is a violation of the liquor law by selling on Sunday.

Never Heard of the Case.

Clarkson and Mary Hodgkin, living north of the city, have filed claims with the County Commission for damages. They say they have suffered on account of the defective condition of the Fall creek bridge near the State fair grounds. The Hodgkins say they were injured April 1895, while driving across the bridge. Mrs. Hodgkin wants \$5,000 and her husband \$1,500. The commissioners say they have no knowledge of a defective condition of the bridge.

Took Flight with His Brother.

In a suit for divorce filed by Robert S. Wheeler in the Superior Court yesterday, Laura M. Wheeler is charged with unfaithfulness and cruelty to the plaintiff. Wheeler avers that she struck him with her hand, pounded him with a club and then took flight with his brother. Before she was charged that the defendant carried away all of the household goods and concealed the two children so that the father could not see them.

Her Husband Sued for Support.

Ernest Engeling has sued her husband, Herman F. Engeling, for support, which she says has not been forthcoming for some time. The Cleveland, Cincinnati, Chicago & St. Louis railway is made a party defendant to the suit. Engeling is employed by the road. His wife wants \$500 a year and asks to have the railway company cited to answer as to how much money is due her husband.

Mary E. Shelton's Will.

The will of Mary E. Shelton was probated yesterday in the Circuit Court. After making a number of small bequests the document names J. R. Shelton, husband of the testator, the beneficiary of the residue of her property.

A LIVERY STABLE FIRE.

Frank Scofield Will Lose \$3,000—Series of Accidents.

The high wind of yesterday was conducive to fires, and the department was kept busy during the day. The most disastrous fire of the day was that at the livery stable of Frank Scofield, Nos. 122 and 124 East Washington street, which was discovered shortly before noon in the hay on the third floor. The building was ablaze when the department arrived, for the hay burned rapidly. The horses in the lower floor were turned loose and the building was flooded. The fire was extinguished after an estimated loss of \$1,000. There was \$100 insurance upon the building, which is owned by Enoch Warmen. There were several carriages in the building, owned by Scofield, which were damaged. A half hour before the fire was discovered Fred Gregory delivered an insurance policy to the firm of Scofield and his partner, which covered the contents of the stable. Horace F. Woods had two carriages burned in the fire and William Long one buggy.

While the department was at work at the livery stable an alarm came in from the vicinity of Liberty street and the Union tracks. The fire was nothing more serious than a building owned by Scofield, which was damaged by a fire. During the afternoon a shed at No. 285 Bellefontaine street caught fire and suffered a loss of a few dollars.

CRAP SHOOTERS SHOW FIGHT.

Two Patrolmen Have a Battle in an Ohio-Street Shanty.

Patrolmen Reecer and Eolen had a hand-to-hand fight with eight negroes in a shanty at the corner of Ohio street and the canal about 11:30 o'clock last night. The police suspected that the negroes were gambling and attempted to raid the place. They found the men seated around a table intently devoted to a game of craps. One of the players brushed the lamp from the table as the police entered and in an instant the room was dark. Reecer closed the door and placed his back against it while his partner tried to capture the men. The prisoners found it necessary to go to the aid of Eolen. In the melee two of the negroes escaped and managed to keep out of the way of the police. The two fugitives ran along the alley south to the City Jail company's plant. Here they separated and one of them drew a revolver and fired point blank at the night watchman who stood in his way. Fortunately the bullet missed the mark. The police kept the six men in the shanty until the arrival of the patrol wagon. The prisoners were all locked up on the charge of gambling.

Investigating Meeting Soon.

Chairman Young, of the special Council committee on the Consumers Trust investigation, said yesterday that he thought the committee would be called together some time this week. "The Trust asked for the investigation," said he, "and its officials have been saying that they had other evidence to present, so that I have not called the committee together. I could have had the list of names of stockholders in the company several weeks ago, but I did not care to have charge of it until the committee is in session and it becomes public. The object of the investigation was to secure a meter ordinance and the company realizes that such a thing is possible there can be no good accomplished by making public the names of the stockholders. The only thing this information would satisfy is an idle curiosity. It is nobody's business who owns the stock so long as the affairs of the company run along as they have been and no legislation favorable to them is pending. But I think there will be a meeting soon and we will prepare a final report."

Copeland Case Resumed.

Mrs. William Copeland, who was taken ill while on the witness stand in the Criminal Court, Friday, was able to proceed with her testimony yesterday afternoon. During the morning the long hypothetical question prepared by Copeland's attorneys was read to Dr. W. B. Fletcher. The physician was called to give expert testimony. He regarded Copeland as a victim of emotional insanity. The Doctor was cross-examined by the State at length.

A FIGHT THAT DIDN'T COME OFF.

Police Spend Several Hours on a Mythical Affair.

Early last evening the police received information that there was to be a prize fight during the night in the vicinity of the Cerealine works, northwest of the city. It was said that the fight was to come off for the purpose of settling a grudge. Acting Captain Hyland sent officers to the place designated, but found no evidence of any fight. Later word came in that the fight was to take place in a barn near the corner of Virginia avenue and Bradshaw street. Two sergeants with several officers were sent to the last named place. A crowd was found at the corner and several hacks were near by. Until after midnight the neighborhood had the indication that something was going to happen. The officers inspected the barns of the neighborhood, but no arrangements for a fight were found. After midnight the crowd began to scatter and finally dwindled down to two or three men. The latter claimed to know nothing of any fight and said some one had telephoned down earlier in the evening that there was to be one and for that reason the crowd gathered. The police believe some jocular citizen was responsible for the report and they fail to appreciate the joke, especially as they tramped many miles in the search.

Cook's Imperial, Woman's Fair, "Highest award, excellent Champagne" good, effective, agreeable bouquet and delicious flavor."

Cash Talks

You have the cash and we have the goods. We will exchange with you for a very little cash, as the prices below demonstrate.

THE LUTHER DRAMA.

OR—

The Story of The Reformation,

Prepared by Mrs. H. E. Monroe, of Philadelphia, to be given at English's Opera House under the auspices of the First English Lutheran Church. Two nights, June 2 and 3. Over one hundred and fifty young people of Indianapolis will take part in the drama. Forty gentlemen and twelve chorists represent Luther's trial at Worms. Two allegorical processions. A scene from the monastery at Erfurt. The escaping of nuns from a convent. The whole story is a masterpiece of the most intensely interesting pages of the world's history. Thousands of people everywhere crowd to hear the wonderful story told by Mrs. Monroe.

General admission, 50c; reserved seats, 75c; additional seats, 25c. Reserved seats on sale at Emil Wulfschlag & Son's new music house, 18 and 20 North Pennsylvania street, May 23 to June 2, and at box office of opera house June 2 and 3.

Some Things Mothers Say

"You make it so easy for our looking. No elevators, no far-away corners, no jostling. Just step in the door and be seated—that's all."

"It's a real satisfaction to not have to be on our guard against some old, two or three seasons past goods."

"You deserve to have most all the Boys' and Children's trade, for you have the nicest goods in town."

"You are showing so many styles here that other stores don't keep."

Many such complimentary remarks are heard every day. We're maintaining and making new trade by giving fresher, newer goods than others keep for less money.
